RODENSTOCK EYEWEAR 2022

ENGINEERED PURISM

Rodenstock eyewear is made of the finest materials by using innovative technologies and is hand-finished with the highest precision and a passion for details that is built on more than 145 years of experience.

Developed in Germany, Rodenstock frames are known for their timeless aesthetic in shape and color, subtle highlights and a minimalist design.

We call it **Engineered Purism**.

SUN CONTRAST LENSES

Optimal UV protection and the best contrast enhancement. The Sun Contrast sun protection lenses absorb blue light components more strongly than conventional sun protection lenses and thus reduce glare and increase contrast. Rich and warm color impressions ensure better vision on the move or in everyday situations – the ideal solution for a day in the city or nature.

- **The best contrast enhancement and optimum UV400 protection**
- **Ideal in bright and diffused light and changing weather conditions**
