## GOING COASTAL

The coastal cities of Barcelona, Miami and New York are home to vibrant neighborhoods, breathtaking architecture and bustling waterfronts, each with a unique style all of their own. Our vibrant new collection takes its inspiration from these iconic cities. Crafted using cutting-edge processes and materials, each design paints an evocative picture of the neighborhood behind its name.

UNISEX

**Begur 8740, 8540 Champagne**  
\_ 1:1 PRESCRIPTION LENSES  
\_ HIGH-TECH TITANIUM

**Begur, Spain**

## CAREFREE LIFESTYLE

The striking rimless curves of the sunglasses draw inspiration from Barcelona's whimsical coves, complemented by ultralight titanium temples that embody the city's carefree lifestyle. With wayfarer lenses as clear as the Mediterranean waters, these contemporary sunglasses protect your eyes from the sun while transporting you to the Costa Brava's sandy shores.

FEMALE

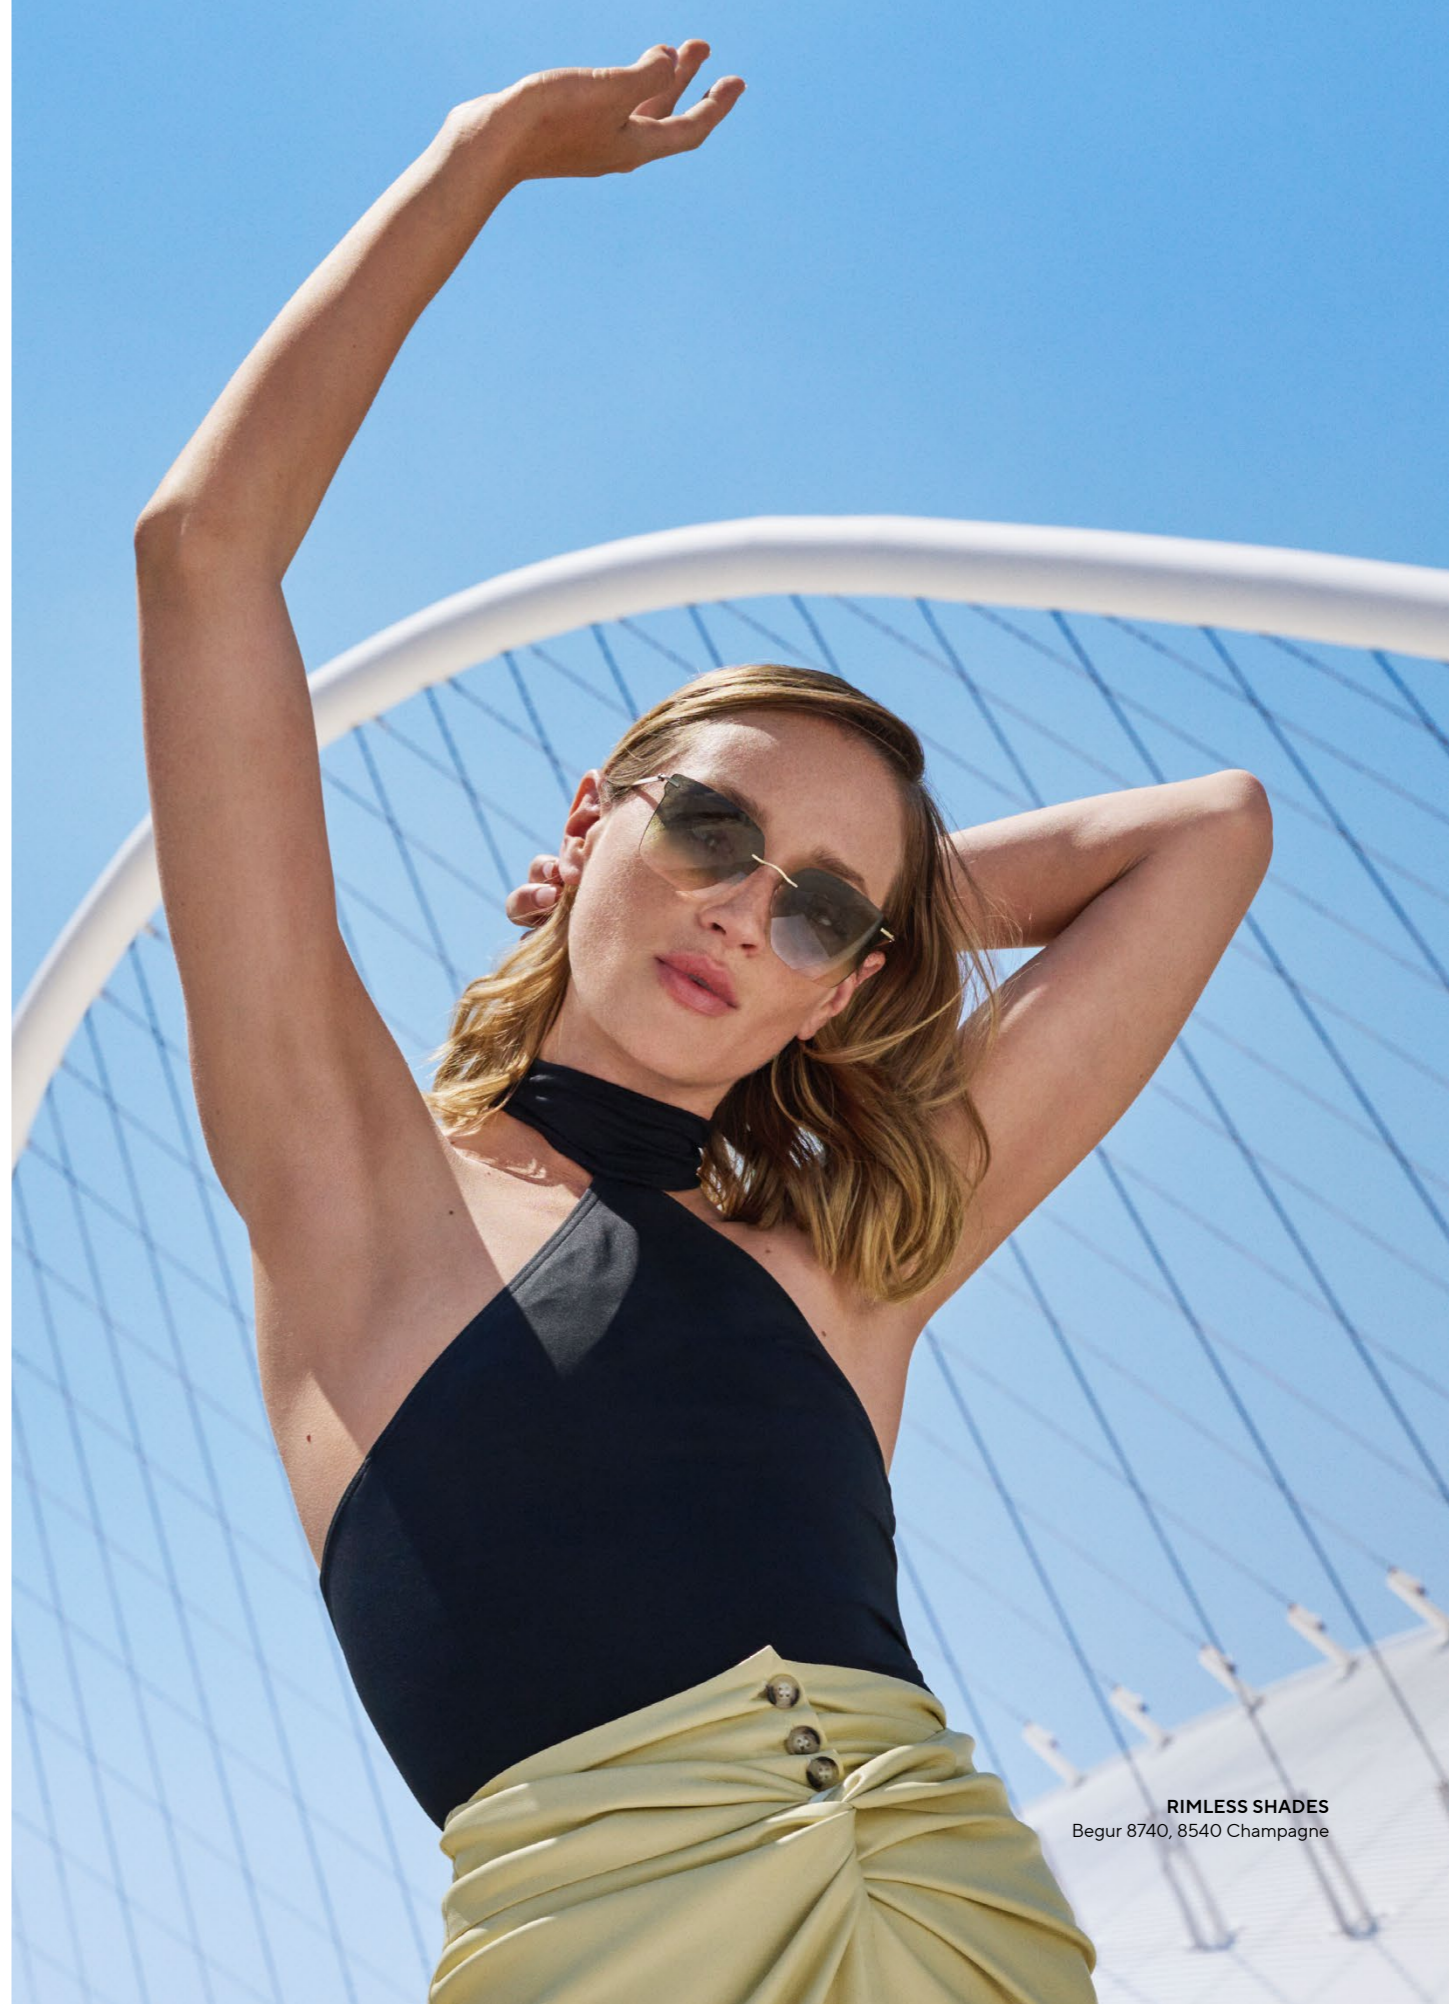

**Calella 8190, 2540 Earthy Amber**  
\_ 1:1 PRESCRIPTION LENSES  
\_ HIGH-TECH TITANIUM

**Calella, Spain**

## CIRCULAR CHIC

At the upbeat Catalan coastal town of Calella, the excitement never stops. That's why these sunglasses are designed to be worn all day. You'll never want to take them off. Their demure, oversized shape, combined with ultralight titanium temples guarantees total comfort and protection, wherever the day takes you.

**RIMLESS SHADES**  
 Hers: Cadaqués 8191, 4040 Lavender Sky  
 His: Bogatell 8739, 6560 Ruthenium

**Cadaqués, Spain**

## NATURAL BEAUTY

There's an air of exclusivity and 70s eccentricity behind the large square lenses of our Cadaqués design. The style of the sunglasses aligns perfectly with the town of Cadaqués' secluded bays, natural beauty and hidden drama so beautifully captured in this feminine design. Rimless with ultralight titanium, their single bridge creates a bold look to steal the limelight.

**Bogatell, Spain**

## BEACH LIFE

With their signature titanium bridge and matching temples, these contemporary aviators create a distinctly masculine look. Exuding confidence from every angle, Bogatell sunglasses take their cue from the half-mile beach in Spain for which they are named. Their angled aesthetic evokes the breakwater rocks of Mar Bella for a style that is designed to make a statement.

\_ HIGH-TECH TITANIUM

**Ribera, Spain**

## ARTISTIC FLAIR

The artisan district of La Ribera, steeped in culture and charm, is the inspiration behind these cat-eye sunglasses. The cobbled medieval streets of Barcelona's Old Town are a haven for creative souls. They feel as timeless as the classic, lightweight design of Ribera sunglasses, which are enhanced with a soft almond shape and thin accent rings around the lenses.

FEMALE

**Sant Martí 8187, 4540 Atlantic Blue**  
\_ 1:1 PRESCRIPTION LENSES  
\_ HIGH-TECH SPX+®  
\_ HIGH-TECH TITANIUM

**Sant Martí, Spain**

## PLAYFUL ECCENTRICITY

The octagonal lenses and curved cutouts of these sunglasses create the kind of buzz the neighborhood home to Bogatell Beach is famous for. Enclosed in accent rings to match their superlight, flexible temples, the eccentricity at play perfectly encapsulates the essence of Sant Martí. It is a style that evokes the area's raucous rock venues and famous festivals.

## EXTRAVAGANT DETAILS

Extravagant and elegant in equal measure, masculine Pedralbes and feminine Sarria feature contrasting aesthetics of minimalist designs with maximalist detail to create a touch of glamor. Both sophisticated Accent Shades are a perfect match for the upscale neighborhoods for which they are named, famous for their colorful markets and wine merchants.

## FUTURISTIC FINESSE

Poblenu and Sant Pere are creative hubs, home to innovative start-ups and design showrooms. These neighborhoods, located in a former industrial zone, are captured in two sunglasses designs that are bursting with urban finesse thanks to their wire-thin flexible titanium frames and minimalist aesthetic.

TITAN BREEZE  
Poblenu 8737, 7000 Rhodium

## TIMELESS DESIGN INSPIRED BY ICONIC PLACES

After discovering Barcelona's most fascinating neighborhoods through the lenses of our chic, new sunglasses collection, we now turn our gaze to some of Silhouette's most prestigious designs. These models are inspired by the world's greatest coastal locations, from the sandy beaches of Miami to the urban buzz of New York City. And best of all: we've got a special surprise in store.

STREAMLINE COLLECTION  
Biscayne Bay 8727, 7110 White / Cool Grey

**Biscayne Bay, Florida**

## COCONUT GROVE YACHT CLUB

Sailboats glide through Miami South Channel, heading for the next harbor. A gusty breeze fills the sails, but the ultralight Biscayne Bay sunglasses from our Streamline Collection stay perfectly in place. Their shape echoes the streamlined shape of boats sailing through the bay's glistening waters, which are rich with aquatic life. The beautiful materials are combined to create a dynamic and exclusive design.

## CITY SLICKERS

From rooftop bars in the banking district, the sun sinks behind the skyline. The city streets below are buzzing with life, just like our Brickell sunglasses from the Silhouette Sun Lite Collection. Their masculine aviator shape gives them a modern, casual look. As the daylight fades, the city is just starting to come to life.

Aventura, Florida

## SUBURBAN DREAMS

It's time for a break beside the pool. The sunlight dazzles across the surface of the water, providing the inspiration for our Aventura sunglasses. The transparent frames transition seamlessly between thick and thin, creating light and shadow and culminating in a shape filled with eccentricity and a distinctive frame-in-frame look.

## INTO THE MULTIVERSE

Explore the multiverse of Midtown Miami with its office towers, palm trees and eclectic boutiques. Those contrasts come to life in our Eos Collection. The unisex frames are larger than life, yet light as a feather, with a 70s retro look that remains timelessly contemporary.

## NEW YORK SKY: DREAMING BIG

The latest, exclusive styles from the Luxury Collection are inspired by rays of sunlight glistening from New York City skyscrapers. The new models for men and women feature a striking 3-dimensional layer effect. Our New York Sky sunglasses embody luxurious lightness, featuring sleek disc hinges for easy handling. Elegance meets urban coolness plated with 23-karat gold.

Futura Dot 9912, 9040 Black & White

## FUTURA DOT: THE VISIONARY

Originally designed in 1974, Futura sunglasses are still among the most sought-after collectibles in the world of eyewear. The Futura Dot gives this iconic Silhouette design a contemporary makeover with state-of-the-art materials and cutting-edge design. The new unisex frame is available in four retro-inspired colors and strictly limited to an edition of 1,964 in honor of the year Silhouette was founded. Each pair is engraved with a unique serial number, making it a one-of-a-kind collector's item.

# QUALITY YOU CAN SEE AND FEEL

## LIGHT Q-GREY: SELF-TINTING LENSES

Light conditions constantly change, even on sunny days. Silhouette's Streamline Collection features self-tinting lenses that automatically adjust to changes in lighting around you. Our premium lenses feature an innovative technology that allows them to seamlessly adapt. The brighter the light, the more your lenses darken. When the clouds roll in, your lenses instantly lighten, so you can always see perfectly, whether you're driving, working or going for a run.

## ULTRALIGHT SUNGLASSES

Silhouette sunglasses are synonymous with high-quality craftsmanship. Each pair is ultra-lightweight and features adjustable temples. This means they are extremely comfortable and fit perfectly, every time. The secret to our ultralight designs lies in the exceptional materials we use, including high-tech titanium made from a special alloy and SPX<sup>®</sup>+, a premium material specially developed by Silhouette.

## 100 % SILHOUETTE: HIGH-PRECISION PRESCRIPTION LENSES

Silhouette sunglasses give you the comfort and protection of premium sunglasses, but with the added benefit of prescription lenses. We craft custom-made lenses for all our sunglasses models at our in-house Lens Lab using 100% Silhouette technologies that unite frame and lenses. All our sunglasses can be optically glazed 1:1 in the exact same colors as our non-prescription lenses. This guarantees visual brilliance and bright colours for your perfect vision.

SUN LITE COLLECTION  
Brickell 4081, 9060 Pure Black/Ruthenium

## HIGH-TECH SPX<sup>®</sup>+

SPX<sup>®</sup>+ is one of the most innovative eyewear materials in the world, developed exclusively by Silhouette. It is flexible and heat-resistant, providing a perfectly comfortable fit all day, without ever losing its shape. Our innovative injection-molding process uses SPX<sup>®</sup>+ to create unlimited frame designs, from minimalistic to highly complex. SPX<sup>®</sup>+ performs exceptionally well in combination with other premium materials such as high-tech titanium.

## HIGH-TECH TITANIUM

Silhouette uses high-tech titanium, which combines unprecedented lightness with maximum flexibility and durability. The unique properties of titanium enable us to design eyewear without the need for screws. High-tech titanium is also hypoallergenic, making it an ideal choice for sensitive skin. We use a special alloy and exclusive techniques to ensure that even the finest parts will stand the test of time. This is how we deliver premium quality that is built to last.

## SILHOUETTE LIGHT MANAGEMENT<sup>®</sup>: ENHANCED VISION FOR A BRIGHTER MOOD

Sunlight brings the world around us to life. It's also essential for our health. At Silhouette, we believe you should be able to fully enjoy the sunshine, especially when you're wearing sunglasses. That's why we developed Silhouette Light Management<sup>®</sup>. This innovative patented technology allows you to see more yellow light, so the world around you appears brighter, with sharper contrasts and more vivid colors. At the same time, Silhouette Light Management<sup>®</sup> lenses fully protect you from harsh light and glare, including total UV and blue light protection.

## POL: ULTIMATE PROTECTION FROM GLARE

Our polarized filter is an integral part of our premium lens. In total, the lens consists of 12 perfectly harmonised layers to ensure clear vision and maximum anti-glare protection. POL absorbs all reflections that cause discomfort. This reduces eye fatigue and guarantees relaxed, high-contrast vision.
